

Erasmus+ Meeting

Friday 16.05.14 Rybnik, Poland

Present.

Estonia: Reet Kangro

Anu Kallas

Portugal: Julio Viana

UK: Julia O'Neill

Helen Chorlton

Ann Southren

Questions/discussion:

1. Ann explained and read through the project application section by section and clarified important points.
2. Julio discussed the possibility of using Facebook to publicise the project. Agreement that this would have to be looked into further.
3. Julio asked how the baseline assessment will be completed. Ann clarified that Julia and Ann will compile the initial paperwork.
4. Reet asked if the work related curriculum would be individual to each school. Julia will provide an initial curriculum and each partner is to modify it to meet their student's needs.
5. Julio queried the possibility of students travelling within the project. This is not possible as this funding was not included in the application. It was very complicated.
6. Reet asked how many staff/who will attend project meetings? The project has identified 3 staff per transnational project meeting.

Should partners wish to send more than this they would have to pay from their school budget.

7. Reet asked about the length of time spent on each project visit. Visits would remain the same Wednesday to Sunday but this was flexible and would be agreed in the initial meeting.
8. Julia to contact partners with the result of the application.
